

Welcome to PHConnect

**Introduction to PHConnect Buy-Side –
*Material Release & Review Your Orders***

ENGINEERING YOUR SUCCESS.

PHConnect – Material Release

- Purpose:
 - To allow suppliers to view the different types of purchase orders open with Parker
 - The Racor Division only used Ship-To Purchase Orders so this screen is not used
 - Suppliers have access to the screen for future use

The purpose of the Materials Release screen is to allow supplier to view the different types of purchase orders open with Parker. Parker has sever different types of purchase orders, however the Racor Division only uses one type - Ship to Parker (SH).

This screen is currently not used by may be used in the future for forecasts.

PHConnect – Review Your Orders

- Purpose:
 - Allow suppliers to view all open purchase orders in the Parker operating system
 - Does not include Kanban orders

The purpose of the Review your Orders screen is to allow suppliers to view all non-Kanban open purchase orders in the Parker operating system.

PHConnect – Review Your Orders

Search Criteria:

- **Location** – Default location is Modesto, CA. All locations of Racor contain the same information.
- **Date Range** – To narrow the search select date range.
- **Search By** – Options is by PO number either Starts with, Contains or Exact match.
- **Buyer** – Default is set to “All.”
- **Status** – The status of the Purchase Order, either Open or Closed.
- **Order by** – Screen sort preference by Part No, Purchase Order, Order Date, Due Date, Promise Date, Status Code and Delivery Date with the selection either ascending or descending.

PO No	PO Ref	Status	Order Date
10122	000	OPEN	
10123	000	OPEN	
10124	000	OPEN	
10125	000	OPEN	
10116	000	OPEN	
10127	000	OPEN	

4

The Review Your Orders screen has the same search criteria as the Kanban screen:

- Location – default location is Modesto, CA for base Racor locations. The default for Racor Division/Village Marine Tec will be Gardena, CA.
- Date range – To narrow the search select date range.
- Search by – Options is by the Purchase Order number either Starts with, Contains or Exact match.
- Buyer – Default is set to “All”
- Status – The status of the Purchase Order, either Open or Closed.
- Order by – Screen sort preference by part number, purchase order, order date, due date, promise date, status code and delivery date with the selection either ascending or descending.

PHConnect – Review Your Orders

PO Num	PO Rel	PO Desc	Order Status	Last Ship Date	Last Change Date	Last Order Date
27565	000	OPEN		06/12/2005	10/06/2005	10/14/2009
27565	112	OPEN		05/06/2005	09/29/2005	10/14/2009
27565	000	OPEN		09/15/2005		10/14/2009
27565	000	OPEN		10/05/2005		10/14/2009
27565	000	OPEN		10/25/2005		10/14/2009
27565	000	OPEN		11/17/2005		10/14/2009

Purchase Order and Purchase Order Release

The first two columns of the order detail listing is the purchase order number and the purchase order release.

Parker Purchase Orders are made up of a five digit number and a three digit release number. An example is 27565/112. This means that Purchase Order 27565 is on its 112th release. Parker Kanban Purchase Orders can have up to 999 releases on a single Purchase Order Number. Non-Kanban Purchase Orders will have the release number 000. In this case it would be 27565/000.
