

MPW Series Watermakers

400-1300 GPD
(1.5-5.0 m³/day)

For Sport fishers, Trawlers and Ocean Yachts

The MPW offers fresh water independence for ocean crossings, extended fishing trips or cruising where dock supplies are unreliable.

The MPW is a 100% modular watermaker for maximum installation flexibility. All the components are supplied as loose items with mounting brackets to fit in any available space. The watermaker can be operated and monitored from the electronic remote control.

Key Features:

Aqua Pro[®] Pump 708-3

Triplex Titanium pump for low vibration and low noise with unsurpassed corrosion resistance.

Remote Control Panel

Remote Control Panel allows start, stop and flush sequences, and displays water quality reading while running.

ENGINEERING YOUR SUCCESS.

MPW Series Watermakers

400-1300 GPD
(1.5-5.0 m³/day)

Standard Features:

- Maintenance-free air/oil separator allows operation while underway
- Magnetic drive low pressure pump provides up to 10 psi of

boost pressure to the filtration system. Never requires seal replacement

- Glycerine filled pressure gauges and acrylic flowmeters for both product and reject streams
- Freshwater flush system included standard. For optional automation of the flush system add p/n 90-1783 for 60Hz, or p/n 90-1782 for 50Hz
- 316 stainless steel pressure regulator ensures consistent

pressure and prevents over or under pressurization of the unit. Adjustable to allow operation in brackish or fresh water

- Automatic diversion valve diverts water to discharge if water quality drops below acceptable standards
- Digital water quality monitor displays purity of product water output. Also displays temperature and total hours for accurate service log
